

AWARDS NOMINATION FORM

Project Awards - Outstanding Engineering in the Area of Materials Protection or Remediation

Award Description:

The AMPP Project of the Year Award category recognizes superior performance, management approaches, innovation, or other achievements in the commission of materials protection technologies for new construction, maintenance projects, or remediation/rehab of existing assets or buildings, and public service impact through community service projects. Nominations are accepted for projects finalized in the previous calendar year.

This award recognizes owners and engineering firms for projects that demonstrate extraordinary achievements in the design and installation of materials protection systems. The project will demonstrate the highest degree of engineering skills while also having an element of uniqueness, innovation, complexity, sustainability, and value. Honoring an overall project rather than an individual, this award focuses on the contributions of a team.
